

Geography Year 10 Curriculum Palette

Year 10

Resource Management

The State Of Water, Energy & Food Resources In The UK

Opportunities & Challenges

How are we Managing Issues Related To Water, Energy & Food Resources In The UK

Focus On Food Supply

Patterns Of Global Food Insecurity

Causes & Impacts Of Food Insecurities

Managing Global Food Supplies Through Strategies To Increase Food Production

Distribution Maps

Dot Maps

Choropleth Maps

Interpretation Of Development Data

Group Work-Persuasive Writing

Knowledge

Skills

Management Strategies

Hydrographs

River Management & Flooding (Risk Factors)

Distinctive Fluvial Landforms

Understand Why Rivers Lose Energy & Deposit Sediment

Deposition

Transportation

Erosion

Fluvial Processes

Understand How The Width/Depth Of The Valley & Channel Change From The River's Source To Its Mouth

Understand How The Gradient Of The Valley & Channel Change From The River's Source To Its Mouth

Changing River Shape & Processes Long & Cross Profiles

River Landscapes In The UK
(Inc. Flood Risk Study On The School Site)

Knowledge

Economic World (Part One)

Knowledge

Skills

Knowledge

Case Studies

Why It Was Needed?

The Strategies Used

The Social Issues Involved

The Economic Issues Involved

The Environmental Issues Involved

Numerical & Statistical Data Analysis

Use Of Maps

Interpretation Of Flood Hydrographs

Global Variations In Economic Development & Quality Of Life

How Development Is Measured Using Different Indicators

GNI Per Head HDI And Their Limitations

Understand The Physical Causes Of Global Development Gap & Consequences

Displayed In Graphs, Maps, Choropleth Maps & Tables

Interpreting Economic Development Indicators

The Effects Of Economic Development On The Quality Of Life

The Role & Impacts Of Transnational Corporations (TNCs)

Examination Of Changing Industrial Structure

Case Study Of Newly Emerging Economy (NEE)

Case Study Of Tourism In An LIC Or NEE

Tourism

Industrialisation

Debt Relief

Fair Trade

Aid

Knowledge On Various Strategies For Reducing The Gap

Disparities In Wealth, Health & International Migration

Understand The Economic Causes Of Global Development Gap & Consequences

Understand The Historical Causes Of Global Development Gap & Consequences

Skills

Knowledge

Calculating Numerical Values

Percentages

Changes Over Time

Basic Statistical Measures (Mean, Median, Range)

Analysing

Trends

Patterns

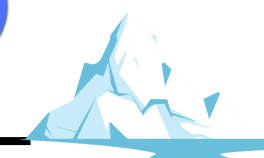

Relationships In Data To Explain The Development Gap

The Impact Of TNCs

The Impact Of The UK's Changing Economy

Comparing & Contrasting Data Sets For Different Countries Or Regions

Glacial Landscapes In The UK

The Physical Processes That Shaped Upland UK Landscapes

Understanding The Mechanisms Of Glacial Erosion (Plucking & Abrasion)

Understanding The Mechanisms Of Transportation

Knowledge

Strong Analytical & Descriptive Abilities

Cartographic & Graphical Interpretation

How They Are used & Managed For Activities Such As Tourism, Forestry Or Farming

Explain How These Landforms Create Distinct Landscapes

Case Study Of A Specific Glaciated Area In The UK

Describe The Formation & Characteristics Of Depositional Landforms

Describe The Formation & Characteristics Of Specific Erosional Landforms

The Physical Processes That Shaped Upland UK Landscapes

Understanding The Mechanisms Of Glacial Erosion (Plucking & Abrasion)

Understanding The Conditions That Lead To Deposition (Till & Outwash)

Skills
