THE Three Rivers Alliance

GOALS ACHIEVED 24-25!

During the 2024-25 academic year, the Three Rivers Alliance made progress in the following areas:

DEVELOPED SUBJECT HUBS AND COLLABORATION ACROSS THE ALLIANCE

In January, we hosted a joint CPD day with staff coming together across the five schools. Joint SLT learning walks have informed CPD and eleven departments have now connected across the Alliance through staff visits.

DEEPENED DIGITAL STRATEGIES

The Digital Futures Conference on 10th January had very positive feedback. Titled 'An Introduction to AI for Teaching, Learning and Admin'. Digital Strategy Leads are now collaborating on digital strategy, teaching and learning and ensuring the best provision in each school.

PROVIDED JOINT PERSONAL DEVELOPMENT OPPORTUNITIES

Personal Development leads from the Alliance schools formed a new network to share best practice. The Alliance hosted a successful Thriving Minds Conference for Year 9s and a Samba Music workshop, which ended with an opening performance at KES's End of Term Concert.

ENHANCED SCHOOL EFFECTIVENESS THROUGH COLLABORATIVE REVIEW

Business Managers, Network Managers, and Facilities staff are connecting across the schools. Headteachers have continued to share and develop best practice to ensure staff wellbeing.
Chairs of Governors met in February to discuss governance, training, induction, and digital transformation.

DEVELOP AND REFINE THE CURRICULUM TO ENSURE RELEVANCE FOR THE 21ST CENTURY

Each Alliance school committed to deliver one of the following sessions: interdisciplinary links (including a workshop for TAs/SEND), resilient learners, AI, oracy and exam support in English, History, Maths and Biology. The Alliance 'Teaching & Learning' group is now focused on designing further CPD opportunities.

OUR NEXT STEPS

- Developing high quality adaptive teaching practice across the Alliance.
- Deepen and embed digital strategies to enhance the school experience.
- Establish further opportunities for students' personal development
- To build best practice and excellence to enhance our schools' effectiveness
- Foster further collaboration in training and developing staff
- To plan, adapt and develop efficiencies in strategic leadership
- To hone and develop the quality of Governance
